Collector Dowd has appointed Dr. Geo.
W. Whitson, of Asheville, Deputy Collector and Stamp officer, with his office at Asheville. This appointment will give unqualified satisfaction to our people, as Dr. Whitson is a most worthy gentleman and will doubtless prove a most efficient officer. There were other worthy gentlemen competing with the Dr., but this is more to his credit in

carrying off the honors. Horki Arrivals.

morning contained on the second of the control of t

home consumption. Much attention is being given this year to the gardens—more than usual in this regard. He sess a better outlook for our people.

A communication from a valued subscribet at West's Mills, and which contained matter highly interesting, if timely used, was not delivered to us until 12 days after date, having been held for postage, the notice of which was probably misplaced. The contents of the letter have long since been anticipated.

We shall be reason to the gardens—more offering the grounds on conditions liberal, just and easily complied with. His proposition was not adopted; and now those grounds are otherwise appropriated. Newton Academy grounds and lands to be acquired contiguous to them, seem now only attainable. Twenty, thirty, forty or more acres may be bought, may be improved and adorned; and then will have been obtained that which can no longer be deferred.

The Board of Aldermen and public opinion must combine to take a very

matter of fact view of what can no longer be whistled down the wind as a matter of sentiment nor deferred as one of convenience. The necessity is upon us to act at once. Be the death rate ever so small, the voice of one poor mortal sounds to our conscious negligence trumpet tongued as the clamor of legions of disembodied spirits pealing forth their reproaches at the indignity heaped on the remains of mortality.
